The Heart Can't Stand Rheumatic Acid Poisoning

To Free and Correct the Blood a Urin-O Treatment is Advised.

There is great danger in those sharp, shooting pains through the chest around the region of the heart. It means that poisonous uric and rheumatic acid are there ready to spring and grip tightly the muscles controlling the heart's action. Don't neglect these warnings, they are the danger signals Nature flashes to you for help. You must neutralize and drive these dangerous poisons from the system, or sooner or later they will over-come you.
The only true way to cure Rheumatism is to get at it from the inside with Urin-O. It acts with marvelous swiftness upon the muscles, kidneys and blood. Clears out the sand-like deposits in the muscles, forces the kidneys to perform those duties for which they were designed and neutralizes the acid within the blood.
Your physician will admit that this is the only true way to cure Rheumatism permanently, and should know that Urin-O is the one remedy that will do it successfully and permanently. Urin-O is a liquid taken internally, 3 times daily and does not contain any morphine, opium or other so-called "pain deadeners." It is good for Rheumatism in any form. Sciatica, Migraine, Inflammatory and Articular Rheumatism all yield readily to Urin-O. Write the makers of the remedy and they can tell you of many wonderful cures that Urin-O has made right here in your own town.
It is sold for \$2 and \$1.00 the bottle or you can obtain a trial bottle free by writing to The Urin-O Co., Syracuse, N. Y.
Urin-O is sold and recommended in Norway, by the Noyes Drug Store. 24-25

James jumped out and took the horse by the bit but could not hold him. They were near Frank Meserve's house. The horse turned and ran into the barn. When he started to run into the barn the wheel struck the side and broke it. James lost his hold, and when the wheel broke T. L. was thrown out, striking on his head and face so as to stun him. Doctors were sent for as quickly as possible. It was quite a while before he regained consciousness. Deer Enticing Cats.

A Call for Help.
The vicinity was awakened Monday morning about one o'clock by the fire alarm which proved to be a call for help for Bryant's Pond. A crew quickly responded and taking the hand tub was soon on the way. It was quite a fire and the timely assistance was welcomed by the residents of that place.

The call was not received in time to enable them to reach there until the hotel property and Stephens' store were completely destroyed. A stream immediately put upon the building then in flames and further progress stopped.

With the assistance of the Norway crew and engine which arrived soon after the fire was soon under complete control. In the great excitement the ladies did not forget their part and served hot coffee and doughnuts, and every other eatable in great abundance, for which the boys were very grateful.

Graduation Exercises.

Norway Opera House was filled to the
 limit, Thursday evening, the occasion
 being the graduation of the class '07 of
 the high school. The stage was hand-
 somely decorated with banks of gotted
 plants. Stearns' orchestra of nine pieces
 furnished excellent music. On the
 stage were seated Percival E. Hathaway,
 principal; Myrtle M. Blackwood, assist-
 ant; H. P. Boody, sub-master; Superin-
 tendent Charles P. Barnes, esq., and
 H. L. Horn, W. F. Jones, esq., and
 George E. Tabbs, school committee, also
 Rev. E. S. Cotton. At 8.15 o'clock the
 class marched to their seats led by the
 marshal, Earle T. Thibodeau. After an
 impressive prayer by Rev. E. S. Cotton,
 and more music by the orchestra, the
 speaking began.

The salutatory and essay, "The Wealth
 of Poverty," by Adeline Sara Brett was
 well prepared and well rendered. In-
 stead of poverty being the accumulation
 of destitution and crime, the lack of God
 given endowments, the dark robe of
 misery and despair, as some say it is, it
 was shown how poverty is the parent of
 ambition and the source of conflict. His-
 tory looks back and on every page the
 stamp of poverty has been a source
 of inspiration. She told of several of
 our brilliant and most honored citizens
 who had risen to their prominent posi-
 tions from homes of poverty. The
 wealth of poverty lies in conflict. From
 conflict spring ambition, perseverance,
 self reliance. From lack of conflict
 comes no song to cheer, no hand to aid,
 no heart to love. On the one hand lies
 the driftwood of the tide, on the other
 the elements that have made the com-
 mercial, civil and religious success of
 the world's history.

Home Influences by Ruth Georgia
 Frost. "There is no place like home."
 Miss Frost showed how the influences of
 a good home and a kind and loving moth-
 er had been the means of developing
 some of our greatest statesmen, soldiers,
 business men and others.

True Genius by Lucy Viola Frost.
 Genius is one of the most essential
 things. Oftentimes the truest genius is
 the least known. There are often those
 in small places that by the aid of money
 and a little help might become widely
 known, that are many times but little
 known outside of their own town. The
 world goes on ignorant of what it has
 lost.

Fannie Stuart Boynton gave the his-
 tory of the class in an interesting and
 pleasing manner. The freshman class
 numbered 35, 26 came from the gram-
 mar school, one each from Bridgton,
 Otisfield and Greenwood, the rest com-
 ing from the Norway hills. At the be-
 ginning of the senior year there were fif-
 teen members. Miss Boynton paid a fit-
 ting tribute to Miss Pierce, whose death
 came near the close of the winter term.
 Abner Hill Mason dealt with Electricity
 as a Housemaid. Showing the contrast
 between the olden time houses and
 those of the present day. Told of the
 home of Mr. Tillman in New York, who
 has a house without chimney, wood or
 coal box, everything being done by elec-
 tricity at a slight cost more than by the
 old method. He pictured the possibili-
 ties of electricity.

The Worth of Character by Goldie
 Della Frost. In all kinds of business it
 is not so much the brains as it is the
 character that counts. Character is
 required as much as capital. Honor,
 purity and character count. The essay
 was a good one and was well delivered.

The Choice of a College by George
 Clark Leavitt. On completing the high
 school course an important question for
 many to decide is the choice of a college.
 Among the important things to be con-
 sidered is that he should choose one that
 will best fit him for the work he wants

to do and to select one that he can afford.
 For the young person of limited means
 the smaller colleges are to be preferred
 to the larger ones.
 Self Reliance by Louise Marie Shank.
 The young man or woman must decide
 that their future happiness depends on
 themselves. Battles both of war and in
 life are won by self reliant people.
 There is no limit to the prize that may
 be won.

Alfred Ernestine Schuner, the class
 prophet, told of the future destinies of
 the members in a very pleasing way.
 She carried a basket and from it picked
 leaves as she told of the future of each
 one. Each member was assured of a
 good future and some good hits were
 introduced.

Portia, the Ideal Woman, by Bertha
 Wilcox Frost. The characteristics of
 this personage were pictured in a pleas-
 ing manner. It was an excellent essay
 and well delivered.

Earle Thomas Thibodeau told of Maine
 as a Summer Resort, picturing the beau-
 tiful coast, rivers and lakes of our own
 Pine Tree State. Norway came in for
 her share of praise, as well as other well
 known, popular summer resorts of the
 State.

The Importance of Physical Culture
 by Lona Elizabeth Noble. We watch
 the mental, moral and physical develop-
 ment of a person. It is the physical
 that receives the most notice. A perfect
 physical development should be sought
 for by all. Most work for it and pay for
 it. The importance of this was plainly
 shown.

Bessie Lincoln Chase delivered an
 excellent valedictory and essay, Perse-
 verance. She showed how much might
 be accomplished by perseverance and
 gave incidents as proof. No half hearted
 work will answer.

Beautiful bouquets of flowers were pre-
 sented to the speakers, graciously
 handed to them by Maude Pike, the flow-
 er girl, at the close of their speaking.

Superintendent Charles P. Barnes pre-
 sented with very fitting remarks the Don
 C. Seltz prize for excellence in work for
 the four years to Miss Chase. The prize
 is one ten dollar gold piece and three
 five dollar pieces. Then followed the
 presentation of diplomas and singing of
 class ode. The ode was composed by
 Miss Noble and the music by Earle Thib-
 odeau, who played the accompaniment
 on the piano.

Gypsies and the Airdales.
 "How do you do, sir?" said the gaudy
 attired gypsy maid as she entered the
 ADVERTISER office, Saturday afternoon.
 "I wish you good luck, let me see your
 hand."

Upon looking at the hand she pro-
 ceeded to warn the heart of the owner
 by naming his many good qualities, and
 later by a request for a handkerchief and
 silver to put in it which was not forth-
 coming. This angered the dear lady
 who went away in a rage.

Later in the day two more of the wan-
 dering maids were about to enter the
 sanctum, but were suddenly confronted
 by one of our famous Airdales, who ab-
 solutely refused to admit them. We kept
 the infuriated beast within the limits of
 our domain.

There were something like half a doz-
 en of the gypsies doing the town and if
 all accounts are true the people along
 the street would have appreciated hav-
 ing one of the Airdales with them.
 They called at many of the places of
 business making the same request as
 above and when getting hold of the sil-
 ver endeavored to pocket it. They were
 finally ordered out of town.

 line. On the return march the cadets
 made the bit of the day, marching down
 Officers street company front. They got
 many a glad hand."

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Is acknowledged to be the most suc-
 cessful remedy in the country for
 those painful ailments peculiar to
 women.

For more than 30 years it has
 been curing Female Complaints,
 such as Inflammation, and Ulcer-
 ation, Falling and Displacements,
 and consequent Spinal Weakness,
 Backache, and is peculiarly adapted
 to the Change of Life.

Records show that it has cured
 more cases of Female Ills than any other one remedy known.

Lydia E. Pinkham's Vegetable Compound dissolves and expels
 Tumors at an early stage of development. Dragging Sensations causing
 pain, weight, and headache are relieved and permanently cured by its use.
 It corrects Irregularities or Painful Functions, Weakness of the
 Stomach, Indigestion, Bloating, Nervous Prostration, Headache, Gen-
 eral Debility; also, Dizziness, Faintness, Extreme Lassitude, "Don't care
 and want to be left alone" feeling, Irritability, Nervousness, Sleeplessness,
 Flatulency, Melancholia or the "Blues." These are sure indications of
 female weakness or some organic derangement.

For a full description of either sex Lydia E. Pinkham's Vegetable
 Compound is a most excellent remedy.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to
 write Mrs. Pinkham, Lynn, Mass. for advice. She is the Mrs. Pinkham
 who has been advising sick women free of charge for more than twenty
 years, and before that she assisted her mother-in-law Lydia E. Pinkham
 in advising. Thus she is well qualified to guide sick women back to
 health. Her advice is free and always helpful.

OXFORD.

Pleased With the Teacher.
It is gratifying to learn that all the teachers in the village schools have been engaged for another year. While the teachers in the primary and intermediate departments have been with us but one term they have gained the good will of the scholars and shown their worth by the renewed interest which their pupils show in their school work. Miss Perkins has been with us many years and needs no recommendation. She is always ready in her work, persistent in her desire to impart knowledge to her scholars and is not afraid to devote seven, eight or nine hours a day if the occasion demands it. Instead of the customary six, Mr. Pratt is one of the hardest working teachers that ever taught school in Oxford. He is on hand early in the morning and is very rare that he finds him away from the school room. He is very consistent and enthusiastic in his work, and endeavors to instill into his pupils the love of learning and the habit of study. He enters into his work with a zest, and into the school functions and sports with a will that sets a good example to his scholars, and if each pupil would meet Mr. Pratt half way and work with a desire to not only benefit himself but to please his teacher, there would be no laggards or superficial scholars in the bunch. Your correspondent thinks the school officials did a wise thing in retaining Mr. Pratt as a change at this time would be injudicious and dangerous.

A band of gipsies hit this town Saturday. They camped on the Plains near Charles Thurlow's house. Saturday afternoon the women of the party came into the village in search of quarters and they picked up quite a few by telling fortunes, and in some cases by making the money disappear to unknown regions.

E. L. Farnsworth preached to the graduating class of Oxford high school, Sunday last. The entire class attended, also many of the children in the other

departments. The house was well filled with the parents and friends of the scholars, and the sermon was closely followed and very much enjoyed by the congregation present. A Children's concert was held in the vestry adjoining the church in the evening.

Base Ball.

P. H. S. vs. Lisbon Falls H. S. 3.
Paris high school closed its base ball season Saturday and won the game by the above score. The game was loosely played but was closely contested and switched with interest. Clark pitched for the Paris team and did good work.

The features of the game were a catch of a foul fly by G. Clark and the catch of a line drive by Peverly. In the second inning L. Clark retired all three of the Lisbon batters on strikes, and Winslow did the same thing to the Paris batters in the eighth inning.

G. Clark led the Paris team at the bat with a three-base hit and a single. He also played a fine game behind the bat, and has developed into as good a catcher as is often found on a high school team. The score:

NORWAY LAKE.
School Affairs.

It is with no little interest and appreciation that we acknowledge the pleasure of a visit to the school at Norway Lake on the occasion of the exhibit of drawing by the school children through the year just passed. Considering the short time, comparatively, in which they have received instruction their advancement is nothing short of marvelous.

The artistic taste, coloring and natural arrangement of flowers, fruit, etc., showed much skill and interest in the pupils and painstaking care on the part of the teachers. It is a branch of study which, although recently taken up, we hope will be continued, as it teaches deftness of hand for any future work, a keener perception of detail, a greater patience and careful observation of the things going on around us continually. It brings the children in closer touch with Nature and will lead them to observe her laws with a greater wonder and a deeper reverence, thus giving them a joy which those unaccustomed with this training cannot know.

We regret that we cannot retain our present teacher, Miss Green, for another year, but we feel sure that what is our loss will be a gain to the school to which she has been elected.
